

1. የድርጅቱ መረጃ ጥያቄዎች

1. የድርጅቱ ዋና ኃላፊነቶች ምንድን ናቸው?
2. ድርጅቱ ምን ዓይነት አገልግሎቶችን ይሰጣል?
3. ስንት ሕንፃዎች/ቅርንጫፎች/ፎቆች አሉ?
4. በአሁኑ ጊዜ ስንት ሰራተኞች አሉ?
5. ዋና ዋና ዲፓርትመንቶች ምንድን ናቸው?
6. የወደፊት የመስፋፋት ዕቅዶች አሉ?
7. አሁን ያሉ የኔትወርክ ችግሮች ምንድን ናቸው?
8. ለዕለታዊ ሥራ በጣም አስፈላጊ የሆኑ አገልግሎቶች የትኞቹ ናቸው?
9. በጣም አስፈላጊ ወይም ስሱ የሆነ ዲፓርትመንት የትኛው ነው?

2. የዲፓርትመንት እና የተጠቃሚ ጥያቄዎች

1. በእያንዳንዱ ዲፓርትመንት ስንት ተጠቃሚዎች/ኮምፒውተሮች አሉ?
2. የትኞቹ ዲፓርትመንቶች የሚከተሉትን ይፈልጋሉ?
 - LAN
 - WiFi
 - VoIP
 - Email
 - CCTV
3. ከፍተኛ ደህንነት የሚፈልጉ ዲፓርትመንቶች የትኞቹ ናቸው?
4. በተደጋጋሚ የሚገናኙ ዲፓርትመንቶች የትኞቹ ናቸው?
5. እንግዶች ወይም ጎብኚዎች Guest WiFi ይፈልጋሉ?
6. ከፍተኛ ባንድዊድዝ የሚጠቀም ዲፓርትመንት የትኛው ነው?
7. በቀጥታ መገናኘት የማይፈልጉ ዲፓርትመንቶች አሉ?

3. የVLAN ጥያቄዎች

1. እያንዳንዱ ዲፓርትመንት የተለየ VLAN አለው?
2. በደህንነት ምክንያት መለየት ያለባቸው ዲፓርትመንቶች የትኞቹ ናቸው?
3. ለሚከተሉት የተለየ VLAN ይፈልጋሉ?

- VoIP
 - CCTV
 - Guest WiFi
 - Servers
 - Network Management
4. Wireless ተጠቃሚዎች ከWired ተጠቃሚዎች ተለይተው ይቀመጡ?
 5. Inter-VLAN Routing ያስፈልጋል?
 6. የትኞቹ VLANs ኢንተርኔት ይፈልጋሉ?
 7. የትኞቹ VLANs የተገደበ መዳረሻ ይፈልጋሉ?
 8. ለSwitches እና Routers Management VLAN ይፈልጋሉ?

4. የኔትወርክ መሠረተ ልማት ጥያቄዎች

1. አሁን ምን ዓይነት Topology ተጠቅማችኋል?
2. አሁን የሚጠቀሙት መሣሪያዎች ምንድን ናቸው?
 - Routers
 - Switches
 - Firewalls
 - Access Points
3. ምን ዓይነት Vendor ትጠቀማላችሁ?
 - Cisco
 - MikroTik
 - Huawei
 - Ubiquiti
4. ስንት ሕንፃዎች/ፎቆች መገናኘት አለባቸው?
5. በሕንፃዎች መካከል Fiber Optic Cable ትጠቀማላችሁ?
6. የኢንተርኔት አገልግሎት ማን ይሰጣችኋል?
7. አሁን የምትጠቀሙት የኢንተርኔት ፍጥነት/Bandwidth ስንት ነው?
8. Backup Internet አላችሁ?
9. Server Room ወይም Data Center አለ?
10. ኔትወርኩ Centralized ነው ወይስ Distributed?
11. Rack እና Patch Panel ትጠቀማላችሁ?

12. ምን ዓይነት Cable Category ትጠቀማላችሁ?

- Cat5e
- Cat6
- Fiber

13. ምን ዓይነት Wireless Standard ትጠቀማላችሁ?

- WiFi 5
- WiFi 6

5. የVoIP ጥያቄዎች

1. IP Phones ትጠቀማላችሁ?
2. ስንት VoIP Phones ያስፈልጋሉ?
3. የትኞቹ ዲፓርትመንቶች VoIP ይፈልጋሉ?
4. በውስጥ ጥሪ ስርዓት ያስፈልጋል?
5. Call Recording ያስፈልጋል?
6. የድምፅ ጥራት ችግር አለ?

6. የEmail ጥያቄዎች

1. Internal Email Server ትጠቀማላችሁ ወይስ Cloud Email?
2. በግምት ስንት Email Users አሉ?
3. Email ለዕለታዊ ሥራ አስፈላጊ ነው?
4. Users Email ከውጭም ይጠቀማሉ?

7. የCCTV ጥያቄዎች

1. ስንት CCTV Cameras አሉ?
2. CCTV የሚፈለጉባቸው ቦታዎች የትኞቹ ናቸው?
3. CCTV Footage የት ይቀመጣል?
4. Remote CCTV Monitoring ያስፈልጋል?
5. CCTV Footage ለስንት ጊዜ ይቀመጣል?
6. IP Cameras ናቸው ወይስ Analog Cameras?

8. የHTTP/HTTPS ጥያቄዎች

1. ድርጅቱ Website ወይም Web Application አለው?
2. Internal Web Applications ትጠቀማላችሁ?
3. Web Services ከውጭ ሊደረስባቸው ይችላል?

9. የFTP/TFTP ጥያቄዎች

1. File Sharing ያስፈልጋል?
2. የNetwork Device Backups በማዕከላዊ ቦታ ይቀመጣሉ?
3. TFTP ለFirmware ወይም Configuration Backup ትጠቀማላችሁ?
4. Backup ምን ያህል ጊዜ ይደረጋል?

10. የNTP ጥያቄዎች

1. የሰዓት Synchronization አስፈላጊ ነው?
2. Centralized NTP Server ትጠቀማላችሁ?
3. CCTV እና Logs በተመሳሳይ Time Server ይሰራሉ?

11. የSyslog ጥያቄዎች

1. Logs በማዕከላዊ ቦታ ይሰበስባሉ?
2. Administrators Logs በመደበኛነት ይከታተላሉ?
3. ችግር ሲፈጠር Alert ይላካል?

12. የAAA ጥያቄዎች

1. Centralized Authentication ትጠቀማላችሁ?
2. Administrators የተለያዩ Username/Password ይጠቀማሉ?
3. የተለያዩ Privilege Levels ያስፈልጋሉ?
4. Active Directory ወይም LDAP ትጠቀማላችሁ?

13. የWLAN ጥያቄዎች

1. WiFi በሁሉም ሕንፃዎች አለ?

2. በየቀኑ በግምት ስንት Wireless Users ይገናኛሉ?
3. Guest WiFi ያስፈልጋል?
4. Wireless Users Authentication ይደረግባቸዋል?
5. የWiFi Coverage ችግር አለ?

14. የደህንነት ጥያቄዎች

1. ዋና ዋና የደህንነት ስጋቶች ምንድን ናቸው?
2. ከዚህ በፊት Cyber Attack ተከስቶ ያውቃል?
3. Firewall Protection ትጠቀማላችሁ?
4. Network Access Authentication ያስፈልጋል?
5. የSecurity Policy አላችሁ?
6. CCTV ለPhysical Security ትጠቀማላችሁ?
7. Server Rooms በአካል ደህንነት የተጠበቁ ናቸው?
8. UPS/Generator Backup አለ?
9. Antivirus ወይም Endpoint Protection ትጠቀማላችሁ?
10. Internet Access Filtering ይደረጋል?

15. የIP Addressing ጥያቄዎች

1. Private IP Addresses ትጠቀማላችሁ?
2. DHCP ትጠቀማላችሁ ወይስ Static IP?
3. የትኞቹ Devices Static IP ይፈልጋሉ?
4. ለወደፊት ስንት IP Addresses ያስፈልጋሉ?
5. IPv6 ለወደፊት ታቅዷል?

16. የNetwork Management ጥያቄዎች

1. ኔትወርኩን ማን ያስተዳድራል?
2. ምን ዓይነት Monitoring Tools ትጠቀማላችሁ?
3. Backups በመደበኛነት ይደረጋሉ?
4. የNetwork Failures እንዴት ይፈታሉ?
5. Remote Management ያስፈልጋል?

6. Configurations ዶክመንት ተደርገዋል?
7. SNMP Monitoring ትጠቀማላችሁ?

17. የWAN እና Remote Access ጥያቄዎች

1. Remote Branches ተገናኝተዋል?
2. ምን ዓይነት WAN Technology ትጠቀማላችሁ?
 - MPLS
 - Metro Ethernet
 - VPN
3. Employees ከውጭ Remote Access ያደርጋሉ?
4. VPN Access ያስፈልጋል?
5. Branches በደህንነት ተገናኝተዋል?

18. የወደፊት መስፋፋት ጥያቄዎች

1. ድርጅቱ ወደፊት ይስፋፋል?
2. አዳዲስ ዲፓርትመንቶች ይጨምራሉ?
3. የUsers ቁጥር ይጨምራል?
4. Future Wireless Expansion ተጠቃሚ ነው?
5. Smart City Technologies ታቅዷል?
6. ተጨማሪ CCTV Cameras ወይም VoIP Phones ይጨምራሉ?
7. Cloud Migration ታቅዷል?

19. የPhysical Environment ጥያቄዎች

1. Dedicated Server Room አለ?
2. በServer Room ውስጥ Air Conditioning አለ?
3. Fire Protection System አለ?
4. Racks እና Cabinets ተቆልፈዋል?
5. Proper Cable Management አለ?
6. Backup Power አለ?

20. በጣም አስፈላጊ የመጨረሻ ጥያቄ

“አሁን ባለው የኔትወርክ መሠረተ ልማት አንድ ነገር ማሻሻል ብትችሉ ምን ይሆናል?”

Your questions are already strong enough for a complete professional interview.

But there are a few **VERY IMPORTANT missing questions** that can make your documentation much stronger and help you during:

- VLAN design
- IP addressing
- Security design
- WAN design
- Implementation chapter
- Scalability chapter

Below is the **FINAL COMPLETE QUESTION LIST** you should use at the Bahir Dar City Infrastructure Department.

FINAL COMPLETE INTERVIEW QUESTIONS

1. Organization Information Questions

Ask:

1. What are the main responsibilities of the organization?
2. What services does the organization provide?
3. How many branches/buildings/floors are connected?
4. How many employees currently work here?
5. What are the major departments?
6. What are the future expansion plans?
7. What are the current network problems?
8. Which services are most critical for daily operations?
9. Which department is the most important or sensitive?

2. Department & User Questions

Ask:

1. How many users/computers are in each department?
2. Which departments require:
 - LAN?
 - WiFi?
 - VoIP?
 - Email?
 - CCTV?
3. Which departments require high security?
4. Which departments communicate frequently?
5. Do visitors need Guest WiFi?
6. Which department uses the highest bandwidth?
7. Are there departments that must NOT communicate directly?

3. VLAN Questions (VERY IMPORTANT)

Ask:

1. Does each department currently use separate VLANs?
2. Which departments should be isolated?
3. Do you need separate VLANs for:
 - VoIP
 - CCTV
 - Guest WiFi
 - Servers
 - Network Management
4. Should wireless users be separated from wired users?
5. Is inter-VLAN routing required?
6. Which VLANs require internet access?
7. Which VLANs require restricted access?
8. Do you want management VLANs for switches and routers?

4. Network Infrastructure Questions

Ask:

1. What topology is currently used?
2. Which devices are currently used?
 - Routers
 - Switches
 - Firewalls
 - Access Points
3. Which vendors are used?
Example:
 - Cisco
 - MikroTik
 - Huawei
 - Ubiquiti
4. How many buildings/floors must be connected?
5. Is fiber optic cable used between buildings?
6. What ISP provides internet service?
7. What internet bandwidth is used?
8. Is there backup internet?
9. Is there a server room/data center?
10. Is the network centralized or distributed?
11. Are racks and patch panels used?
12. What cable category is used?
Example:
 - Cat5e
 - Cat6
 - Fiber
13. What wireless standard is used?
Example:
 - WiFi 5
 - WiFi 6

5. VoIP Questions

Ask:

1. Do you currently use IP phones?
2. How many VoIP phones are required?
3. Which departments require VoIP?
4. Is internal calling required?
5. Is call recording required?
6. Is voice quality currently a problem?

6. Email Questions

Ask:

1. Do you use internal email servers or cloud email?
2. Approximately how many email users exist?
3. Is email critical for daily work?
4. Do users access email internally only or remotely too?

7. CCTV Questions

Ask:

1. How many CCTV cameras exist?
2. Which locations require CCTV?
3. Where is CCTV footage stored?
4. Is remote CCTV monitoring required?
5. How long is CCTV footage stored?
6. Are IP cameras or analog cameras used?

8. HTTP/HTTPS Questions

Ask:

1. Does the organization host websites?
2. Are internal web applications used?
3. Are web services accessed from outside the organization?

9. FTP/TFTP Questions

Ask:

1. Is file sharing required?
2. Are network device backups stored centrally?
3. Is TFTP used for firmware/configuration backup?
4. How often are backups performed?

10. NTP Questions

Ask:

1. Is synchronized time important?
2. Is a centralized NTP server used?
3. Are CCTV and logs synchronized with the same time server?

11. Syslog Questions

Ask:

1. Are logs collected centrally?
2. Do administrators monitor logs regularly?
3. Are alerts generated when failures occur?

12. AAA Questions

Ask:

1. Is centralized authentication used?
2. Do administrators use separate usernames/passwords?
3. Are different privilege levels required?
4. Is Active Directory or LDAP used?

13. WLAN Questions

Ask:

1. Is WiFi available in all buildings?

2. Approximately how many wireless users connect daily?
3. Is Guest WiFi required?
4. Are wireless users authenticated?
5. Are there WiFi coverage problems?

14. Security Questions

Ask:

1. What are the major security concerns?
2. Have cyber attacks happened before?
3. Is firewall protection used?
4. Is authentication required for network access?
5. Are there security policies?
6. Is CCTV used for physical security?
7. Are server rooms physically secured?
8. Is UPS/generator backup available?
9. Is antivirus or endpoint protection used?
10. Is internet access filtered/restricted?

15. IP Addressing Questions

Ask:

1. Are private IP addresses used?
2. Is DHCP or static IP assignment used?
3. Which devices require static IPs?
4. How many IP addresses are needed for future growth?
5. Is IPv6 planned for future use?

16. Network Management Questions

Ask:

1. Who manages the network?
2. What monitoring tools are used?
3. Are backups performed regularly?

4. How are network failures handled?
5. Is remote management required?
6. Are configurations documented?
7. Is SNMP monitoring used?

17. WAN & Remote Access Questions (IMPORTANT MISSING PART)

This section was missing and is VERY important.

Ask:

1. Are remote branches connected?
2. Which WAN technology is used?
Example:
 - MPLS
 - Metro Ethernet
 - VPN
3. Do employees access the network remotely?
4. Is VPN access required?
5. Are branches connected securely?

18. Future Expansion Questions

Ask:

1. Will the organization expand?
2. Will new departments be added?
3. Will users increase?
4. Is future wireless expansion expected?
5. Are smart city technologies planned?
6. Will more CCTV cameras or VoIP phones be added?
7. Is cloud migration planned?

19. Physical Environment Questions

VERY IMPORTANT for Chapter 4.

Ask:

1. Is there a dedicated server room?
2. Is air conditioning available in server rooms?
3. Are fire protection systems installed?
4. Are racks and cabinets locked?
5. Is there proper cable management?
6. Is backup power available?

20. MOST IMPORTANT FINAL QUESTION

Ask this at the end:

“If you could improve one thing about your current network infrastructure, what would it be?”

This question gives you:

- Statement of problem
- Objectives
- Justification
- Recommendations
- Conclusion ideas

EXTRA IMPORTANT THINGS TO COLLECT

If possible collect:

- Building layout
- Existing topology
- Device counts
- Access point locations
- Rack photos
- Floor structure
- Internet bandwidth
- Existing IP ranges

- Existing VLAN IDs
- Server list

FINAL RESULT

Now your interview questions are COMPLETE and professional enough for:

- Chapter 1
- Chapter 2
- Chapter 3
- Chapter 4
- VLAN design
- IP addressing
- Security
- WAN
- WLAN
- VoIP
- CCTV
- Syslog
- AAA
- NTP
- FTP/TFTP
- Scalability
- Implementation planning
